

G6

TRANSFORMING SINGLE-GAS DETECTION WITH CONNECTIVITY

G6 from Blackline Safety is the new standard in single-gas detection, helping your workers access the help they need in the event of an incident—and helping you take quick and informed action.

With direct-to-cloud connectivity, G6 delivers immediate location awareness and vital information through emergency SOS and notifications of high-urgency events and low compliance. Plus, automated analytics and accurate data insights help you stay a step ahead of possible safety risks.

Easily scalable to fit into any safety program or budget, the award-winning G6 is a hassle-free yet data-rich solution to improve safety and boost operational efficiency in the modern industrial workplace.

BUILT-IN CAPABILITIES:

Real-time direct-to-cloud cellular connectivity and data streaming to Blackline Live

GPS to locate people and devices quickly

Single-gas detection for H₂S, CO, O₂ or SO₂

Emergency SOS

Rechargeable battery with up to one year battery life

Live gas readings on device display (configurable)

Automatic updates several times per year make your device even smarter over time

Analytics to improve safety, compliance, culture, and performance

Blackline Safety protects 150,000 workers in 70+ countries

ALL-IN-ONE CONNECTED SAFETY SOLUTION

KEY BENEFITS

Streamline incident response

- ✓ Take quick and informed action with vital and up-to-date worker location and safety status information
- ✓ Trigger an emergency SOS manually during critical situations for immediate help
- ✓ Deliver real-time notifications to emergency contacts during high urgency events to keep people informed and aware of hazardous environments

Improve safety and compliance

- ✓ Efficiently manage compliance with real-time time visibility and easy access to dashboards on device usage, calibration, bump testing and more
- ✓ Enhance adoption with a connected easy-to-use, intrinsically safe device that require minimal maintenance
- ✓ Gain valuable insights for a deeper understanding of ways to proactively prevent incidents and improve safety processes and training

Boost operational efficiency

- ✓ Enhance accuracy, eliminate reporting errors and streamline compliance management and incident investigation through automation
- ✓ Reduce IT infrastructure costs, easily find lost devices, and save money on replacement expenses through wireless connectivity
- ✓ Choose to own, rent or lease to maximize your CAPEX or OPEX budgets

DID YOU KNOW?

G6 lowers your total cost of ownership—with devices that last four years or more—versus the two-year life span of competitive devices.
